EDUCATION

University of Georgia - Athens, GA
Bachelors of Science, Computer Science

May 2023
GPA: 3.97

WORK EXPERIENCE

Taco Bell - Canton, GA
Team Member

June - July 2021

- Handled multiple positions, including cashier, food prep, and drive-thru operations

CAMPUS & COMMUNITY INVOLVEMENT

Association for Computing Machinery - Athens, GA
Member

August 2021 - Present

- Improved programming and development skills by attending meetings at ACM-CSIP
- Met like-minded people through biweekly meetings covering networking with potential employers and participating in technical workshops

Franklin Residential College - Athens, GA
Member

August 2020 - Present

- Participate in the various service and academic events the FRC offers, examples being “Focusing on Film” with Dr. Sieving, or a lecture on how Mary Frances, the first African American graduate, overcame adversity at UGA
- A requirement to remain in the FRC is to serve the community of Athens through volunteerism

PERSONAL PROJECTS

Monster Game

June 2021

- Designed a game in Java where two players choose from four Monsters and shoot projectiles at each other's hitboxes, with health bars for each player and a screen indicating which player won when one of the health bars reaches 0.

Keylogger

October 2021

- Implemented the keyboard state using C++ to work on Windows and Linux systems, providing a platform-independent way of obtaining key inputs. It also provides a way of converting scancodes of one set to another with enum classes having the same members as the example enum classes.

SELECTED COURSEWORK

- Data Structures, Web Programming, Systems Programming, Discrete Mathematics
